## Experience

### **Founder and CEO of Quak, Cairo, Egypt, 10/2018 - Present.**

I was responsible for managing and leading the startup to the right direction after creating the MVP (Minimum Viable Product). Quak is innovative idea trying to break the walls between the sponsors (Businesses willing to pay to advertise) and the Hosts (People with digital audience on YouTube, Facebook, ..etc). Offering them a responsive and safe place to make deals.

### **Director and Designer at Get Team, Cairo, Egypt, 5/2018 - Present.**

I was responsible for directing large number of people in parties, ceremonies and events. With that in mind, I was also responsible for maintaining the private state for each member and guide them through the time. One of my my roles in the Get Team was designing a lot of materials like the logo, IDs, ..etc.

## Education

### **El-Neel STEM School for Science and Technology. 2014-2018**

#### **Noteworthy courses:**

- Computer Science 101 - Stanford University
- Programming Foundations: Data Structures - LinkedIn Learning
- JavaScript Getting Started - Pluralsight
- JavaScript for Web Development - Udemy

## Skills:

- Experience in Software Engineering, Product Management and Entrepreneurship.
- Ability to write and deploy software applications, from concept to end-user, using various programming languages.
- Build rich user experience driven by statistics and user researches.
- Effective verbal and written communication skills within a team environment.
- 
- **Programming languages:** C/C++, Java, JavaScript, TypeScript , Php, Python, Ruby and Swift
- **Technologies:** Node, Rails, Django, SQL, Express, React, Vue, Next.js, Bootstrap, HTML5, CSS3.
- **Databases:** MongoDB and MySQL.
- **Version Control:** Git and Github.
- **Additional:** Adobe Photoshop, Adobe XD and Microsoft Office.

## Awards

### **The Cairo International Model of The United Nations (CIMUN) - American University In Cairo**

Got the title of "The Best Ambassador Of The Model" out of 100 members for making the best decision/project in the model after making a presentation that really got people's interest.

## Student Groups

### **Science Officer and Official Speaker at The Regional Students Union. Omrania, Giza, Egypt.**

I was responsible for enhancing the academic skills and the general knowledge for all the students in the region (40k+ Students from over 12 schools). I was also responsible for creating and organizing scientific competitions and trips.
